

Time is running out to sign-up for [Vonage's first-ever worldwide developer conference.](#)

The Campus 2019 program is packed with over 30+ hours of FREE to attend keynotes, workshops and live coding sessions covering the full spectrum of our communications APIs.

Whether it's our Voice API, learning more about messaging on multiple platforms like WhatsApp or Facebook Messenger, or understanding how to build amazing conversation experiences using video, AI, and other channels, you're guaranteed to leave this event with new approaches, tooling and inspiration.

We've also been building something exclusive for attendees to hack on during the event. If you want to find out what it is, the image above gives a hint but the only way to know for sure is to be there!

We'd love to see you in San Francisco so visit the [Campus 2019 website](#) to register today. Feel free to register your team as well - they'll only thank you for it!

You can also follow **#VonageCampus** on social for the latest updates and announcements.

The Campus Team 🙌
